SUMMARY

Business Analyst with experience managing energy trading processes, analysing requirements, and improving digital process and system landscapes. Experienced in process analysis, BPMN, Jira, SQL, Power BI, SAP S/4HANA, automation, and KPI frameworks across international energy operations. Strong in identifying optimisation potential, translating business requirements into technical solutions, and documenting processes for cross-functional stakeholders.

SKILLS

BI & Reporting: Microsoft Power BI, Tableau, Jira (dashboards, JQL, ScriptRunner), KPI design

Data & Analytics: Python (pandas, NumPy, matplotlib), SQL, Advanced Excel (Power Query, VBA)

AI & Automation: ChatGPT, Google Gemini, Claude, Power Automate, n8n

Systems: SAP, Openlink Endur, CRisk, MDM Nexus, HubSpot, Salesforce, Confluence, Trello

Business: Process mapping (BPMN 2.0), workflow optimization, stakeholder management, requirements gathering

WORK EXPERIENCE

08/2025 – Present	RWE Supply & Trading GmbH, Business Analyst (Full-Time), Essen ● Analysed end to end counterparty processes, identifying validation gaps and optimisation potential across agreements, approvals, and trading readiness. ● Built and maintained Jira dashboards for 10+ support functions, measuring KPIs, workflow status, overdue tasks, and process bottlenecks. ● Developed Power BI and Jira dashboards flagging missing approvers within 24 hours, exposing workflow delays before trading readiness was affected. ● Automated monthly cost modelling for exchange-traded and non-exchange-traded products across Endur, Jira, and Excel, eliminating 3+ days of manual work. ● Automated SLA reporting workflows with Deloitte, standardising process data and reporting templates across support functions.
04/2023 – 07/2025	RWE Supply & Trading GmbH, Data & Process Analyst (Werkstudent), Essen ● Analysed approval workflows across 10+ teams, redesigning escalation rules and reducing issue resolution time by 32% year over year. ● Automated cross-system reporting by integrating Endur and Jira data, replacing a manual monthly process for tracking approved products. ● Built Power BI dashboards tracking KPIs across 10+ teams, exposing workload distribution and workflow bottlenecks. ● Eliminated a 2-day manual workflow using Power Query and VBA, automating cost modelling across Endur and Jira.
10/2022 – 03/2023	Mercedes-Benz AG, Data & After-Sales Analyst (Intern), Stuttgart ● Built Power BI dashboards visualising automotive trends, translating operational data into structured reports for cross-functional stakeholders. ● Built a Python demand forecasting model for HV battery production, replacing manual Excel analysis and improving forecast accuracy by 30%. ● Modelled future EV car park demand with Prognostica GmbH, informing production targets and circular economy planning. ● Analysed EV after-sales revenue, proposing warranty and product positioning strategies based on customer and market analysis.

11/2021 – 07/2022	Emteria GmbH, Sales & Strategy Analyst (Werkstudent), Aachen • Led CRM migration from Pipedrive to HubSpot, restructuring pipeline data and launching KPI dashboards for lead lifecycle tracking. • Translated enterprise customer feedback into structured product inputs, informing feature prioritisation with the product team. • Identified high-value customer segments through segmentation analysis, increasing qualified pipeline by 40%.
10/2018 – 12/2020	Byju's The Learning App, Business Development Manager (Full-Time), Bengaluru • Analysed sales funnel performance using LeadSquared, identifying conversion drop-offs across 300+ accounts and informing corrective targeting. • Led and coached a 16-member sales team using KPI tracking and structured performance reviews across a \$3.5M regional market. • Grew B2C sales revenue by 150% by analysing consumer behaviour and refining outreach approaches.

EDUCATION

04/2025	RWTH Aachen University, M.Sc. Management and Engineering, Aachen • Management Focus: Marketing, Financial, Strategic and International Business • Engineering Focus: Artificial Intelligence & Data Analytics, Embedded system, ML
05/2017	SRM University, B.Tech. Mechanical Engineering, Chennai • Focus: Production Management, Process & Cost estimation, CAM
